The new shower toilet Geberit AquaClean Mera

Featuring the very highest level of technology, design and comfort, the AquaClean Mera shower toilet from Geberit sets new standards in every respect. The design of the compact complete solution impresses thanks to its high-quality materials, soft lines and flowing transitions. The innovative technology inside the shower toilet ensures that electricity and water are used economically and allows users to adjust all functions according to their personal preferences. The shower toilet, which was developed and manufactured by Geberit in Switzerland, will be available from September 2015.

- Hybrid hot-water system for a constant supply of warm water
- Patented WhirlSpray shower technology for a soft, vitalizing shower spray
- Separate lady wash, protected when not in use
- Rimless ceramic appliance with asymmetrical inner geometry for a quiet and thorough flush without splashes
- Automatic opening and closing of the WC lid
- Ergonomic, heatable WC seat made of duroplast
- Built-in descaling system for the spray arm and hot-water system
- Discreet orientation light in individually programmable colors
- Effective odor extraction unit with a durable ceramic filter
- Concealed electrical and water connections
- Suitable for all Geberit installation systems and Monolith sanitary modules

↑ Thanks to its state-of-the-art technology and excellent design, the Geberit AquaClean shower toilet is very compact. The chrome-plated design cover (also available in white) creates the impression that the appliance is floating.
