

↑ The new Geberit urinal Preda: A product that features clear lines and can be used in a wide range of settings.

↑ An easily accessible, integrated control unit facilitates maintenance.

The flexible Geberit urinal system

Be it the urinal facilities for a stadium or a modern hotel, such infrastructures can be optimally adapted to the respective needs with the new Geberit urinal system. Here, one can choose from between a conventional water-saving flush, individual programming of the flush or operation entirely without water.

- A comprehensive product range simplifies planning and installation.
- Rimless ceramic appliance and unobstructed access to all connections simplify cleaning and reduce maintenance costs.
