On the basis of the Articles of Incorporation and the Organizational Regulations for the Board of Directors of Geberit AG dated March 7, 2014, the Board of Directors hereby issues the following regulations concerning the powers and duties and the organization of the Audit Committee (hereinafter referred to as the "AC").

The Board of Directors elects the members of the AC from its midst. Their term of office ends at the closing of the following ordinary general meeting.

2. Powers and duties

2.1 General

The AC supports the Board of Directors in the fulfillment of its statutorily prescribed, inalienable and non-transferable duties as per Art. 716a OR (Swiss Code of Obligations) in the areas of financial controls (supervision of internal and external auditing, monitoring of financial reporting) as well as supervision of persons entrusted with management (internal control system). Nevertheless, overall responsibility for the duties and powers transferred to the AC shall always remain with the Board of Directors.

The AC reports to the Board of Directors regularly on its activities and submits the necessary proposals.

2.2 Powers and duties in detail

2.2.1 Supervision of internal and external auditing

It assesses the performance of the internal and external auditors as well as their cooperation with one another.

The AC supports the Board of Directors in the nomination of the external auditors for proposal to the General Meeting.

The AC assesses the fees of the external auditors and satisfies itself of their independence. It checks the compatibility of the audit work with any consulting mandates.

The AC checks the independence of the Internal Corporate Audit Department from the Group Executive Board and the units to be audited.

The AC approves the guidelines for the work of the Internal Corporate Audit Department. It submits proposals concerning the appointment and dismissal of the Head of the Internal Corporate Audit Department.

2.2.2 Monitoring of financial reporting

2.2.3 Assessment and further development of the internal control system

The AC assesses the functionality of the internal control system, including risk management, forms an impression of the situation concerning compliance with applicable standards and guidelines, and develops these further.

2.2.4 Information

The AC has direct access to the Internal Corporate Audit Department, can obtain all information required by it within the Geberit Group and question the responsible employees. It ensures that it receives regular information from both the internal and the external auditors.

2.2.5 Pension plans

The AC shall receive information on an annual basis from the Group Executive Board concerning the financial situation of the pension plans for the employees in Switzerland and of other important pension schemes of the Geberit Group.

The Chairman or – in the event of incapacity – the most senior member of the AC chairs the meeting.

The Chairman of the AC determines the recording secretary.

The AC performs its duties and exercises its powers as an overall and collective organ. The members have no personal powers and can therefore not issue any orders.

The AC may pass resolutions if a majority of its members are present. Resolutions are passed by a majority of the votes cast. In the event of a tied vote, the Chairman of the AC shall cast the deciding vote.
